A CHRISTIAN SCIENCE NURSING FACILITY**

**“Christian Science Nurses as Witnesses to Divine Law”**

**by Christie C. Hanzlik, C.S. of Boulder, Colorado  
Keynote Talk for the 2020 Annual Meeting of Wide Horizon  
Saturday, October 24**

**Introduction of Speaker**

Our speaker today is Christie Hanzlik. Christie is a Christian Science Practitioner from Boulder, Colorado, and is a volunteer for Wide Horizon. She moved to Colorado in 2006 and taught undergraduate and graduate courses at the University of Colorado-Boulder for several semesters, before committing to the fulltime public practice of Christian Science healing in 2009.

Christie loves working with youth of all ages. She has served as a practitioner at Christian Science summer camps and year-round events for more than 10 years. Christie also served on the Christian Science Board of Lectureship for three years, and has addressed many Christian Science Associations in the US and abroad. Locally, Christie has served as the Chair of Colorado’s statewide Christian Science Institutional Committee for 8 years. She is active in her home church in Boulder – where she enjoys teaching Sunday School and looking for new outreach opportunities.

She lives with her husband and two sons, and next door to her dad in Boulder.

Christie says that one of her favorite parts of the healing practice is taking calls from people who are new to Christian Science because she loves finding new ways to share metaphysical ideas. Her talk today is on “Christian Science Nurses as Witnesses to Divine Law.” I hope you find her analogies and simple way of sharing Christian Science as helpful as we do.
