SECTION 5: OUR VISION of CHRISTIAN SCIENCE NURSING

Christian Science nursing practice is a ministry devoted to spiritual healing. The Christian Science nurse cherishes, nurtures, comforts and vigorously maintains in thought an expectancy of healing. Dignified personal care is provided while keeping clearly in mind that God most effectively cares for man. Mary Baker Eddy stated that “the nurse should be cheerful, orderly, punctual, patient, full of faith, -- receptive to Truth and Love.” (*Science and Health*, p. 395) Wide Horizon’s Christian Science nurses should always be doing their best to embody these qualities.

WHAT WE ANTICIPATE

Article XXX Section 7 of the *Church Manual* reads in part, "I recommend that each member of this Church shall strive to demonstrate by his or her practice that Christian Science heals the sick quickly and wholly, thus proving this Science to be all that we claim for it."

Wide Horizon expects each patient will work wholeheartedly for healing, regeneration, renewal and transformation. Having this goal before thought, all guests will realize that they come to Wide Horizon for intense daily study and prayer, culminating in mental and physical freedom. All guests and residents at Wide Horizon should daily claim and strive for spiritual growth and healing in their individual practice of Christian Science.

SECTION 6: STATEMENT OF UNDERSTANDING
